What's new in Class Teams

- Luokan Teams – vasen valikko
- Insights
- Ryhmätehtävät
- Lukutaidon edistyminen
- Syventävä lukuohjelma
- Videotehtävänanto
- Whiteboard tehtävissä

IMPROVEMENTS TO TEAMS FOR EDUCATION LEFT RAIL NAVIGATION

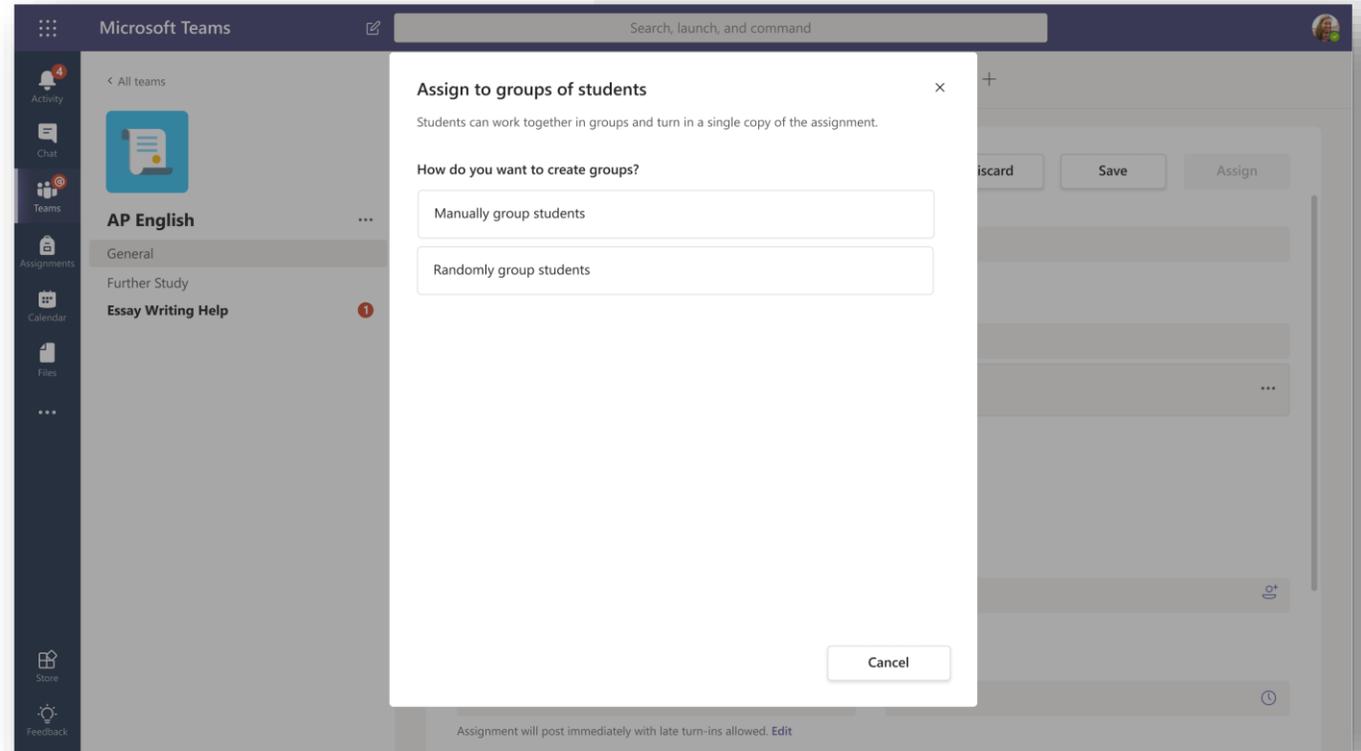

We have improved discoverability and access to your team-level class apps (Assignments, Grades, OneNote, Insights [coming soon]). They are now easily accessible in the left rail for grid view users. The channel-level features and apps (Posts, Files, User-added Tabs, 3P apps) will still live as tabs.

GROUP ASSIGNMENTS

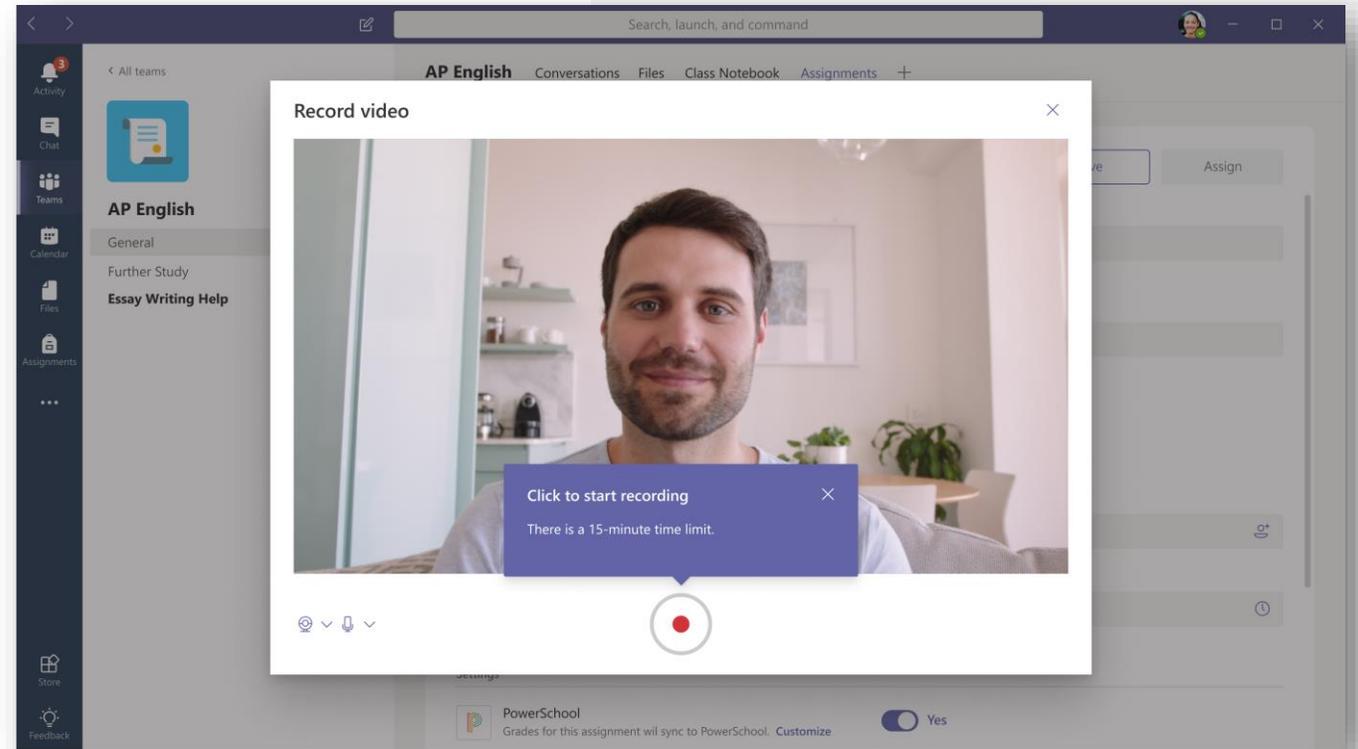

Collaboration is key in today's learning environment. Group assignments help teachers easily create, assign, and grade group projects.

Students can work together and turn in together, making the logistics of group work that much easier.

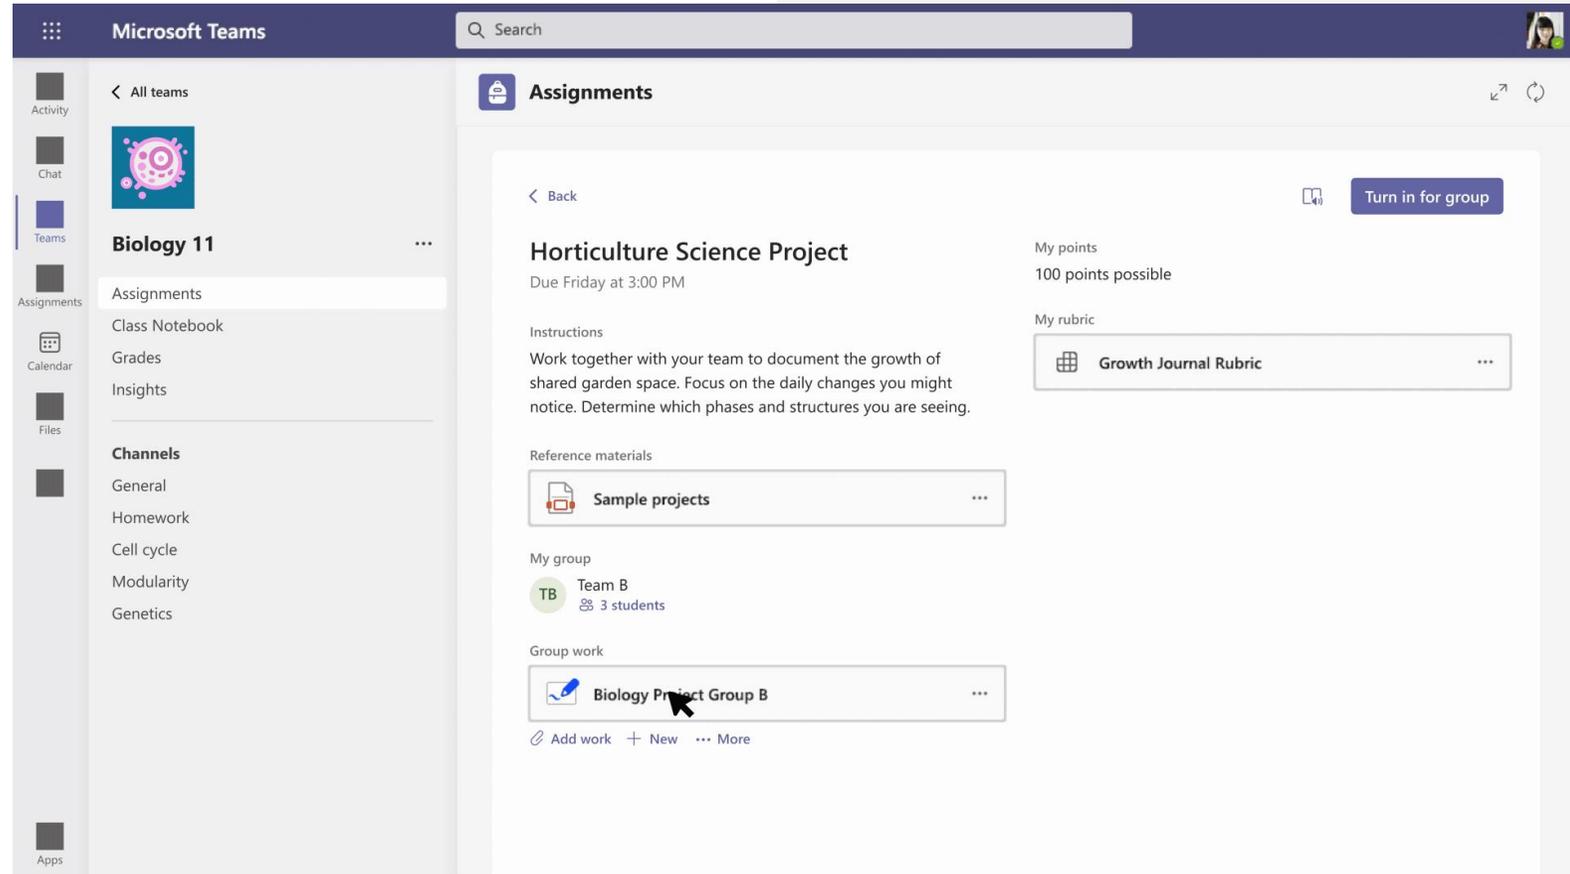

VIDEO AND AUDIO INSTRUCTIONS & RECORDINGS IN ASSIGNMENTS

With this improvement, educators will be able to record audio or video instructions when creating an assignment and students will be able to record video or audio assignments within Teams and submit them.

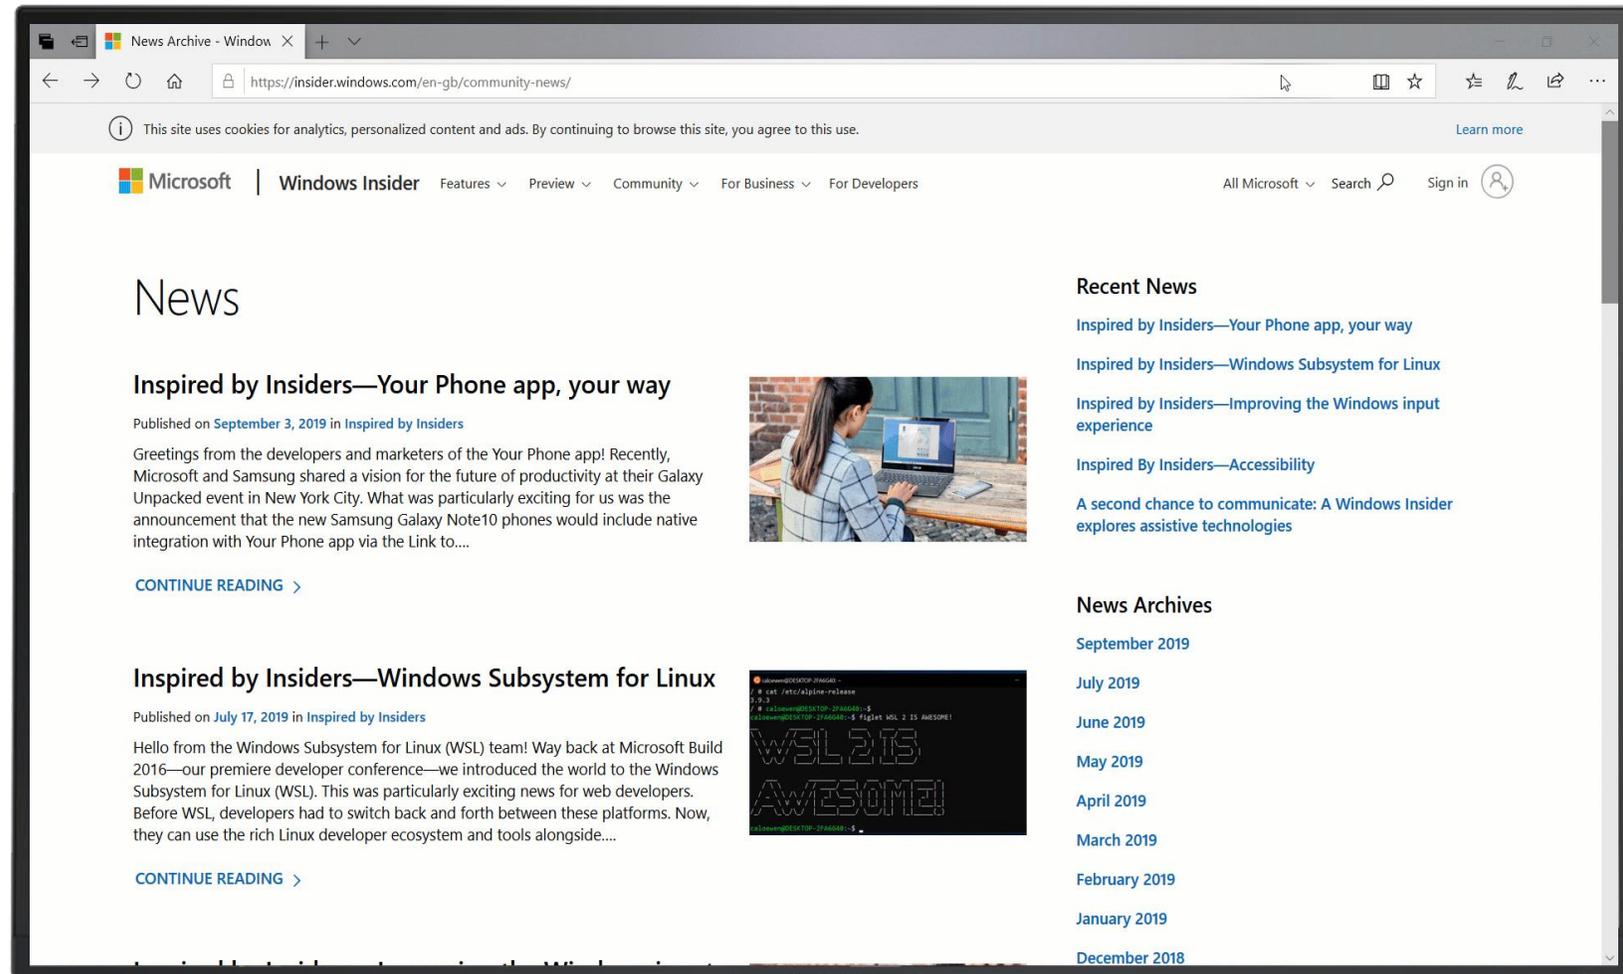

WHITEBOARD IN ASSIGNMENTS

With Whiteboards in Assignments, the teacher can share Whiteboard to students as any other office document.

IMMERSIVE READER – SYVENTÄVÄ LUKUOHJELMA

What's new in Meetings

- Breakout Rooms parannuksia
- Automaattinen kokouksen tallennus
- Dynaaminen näkymä
- Esittäjänäkymä
- PowerPoint Live Teamsissa
- Tekstityksen kielivaihtoehdot

BREAKOUT ROOMS ENHANCEMENTS

Upcoming breakout room enhancements:

- ✓ Room assignment experience improvements
- ✓ Pre-meeting room creation and participant assignment
- ✓ Presenter Support
- ✓ Allow participants to select the rooms they want to join

AUTOMATIC MEETING RECORDING

With this option, meeting organizers and educators will have the option to specify that their meeting should be automatically recorded as soon as it begins.

Note: This feature will require A3/A5 licensing.

Meeting options Prototype only.

DYNAMIC VIEW

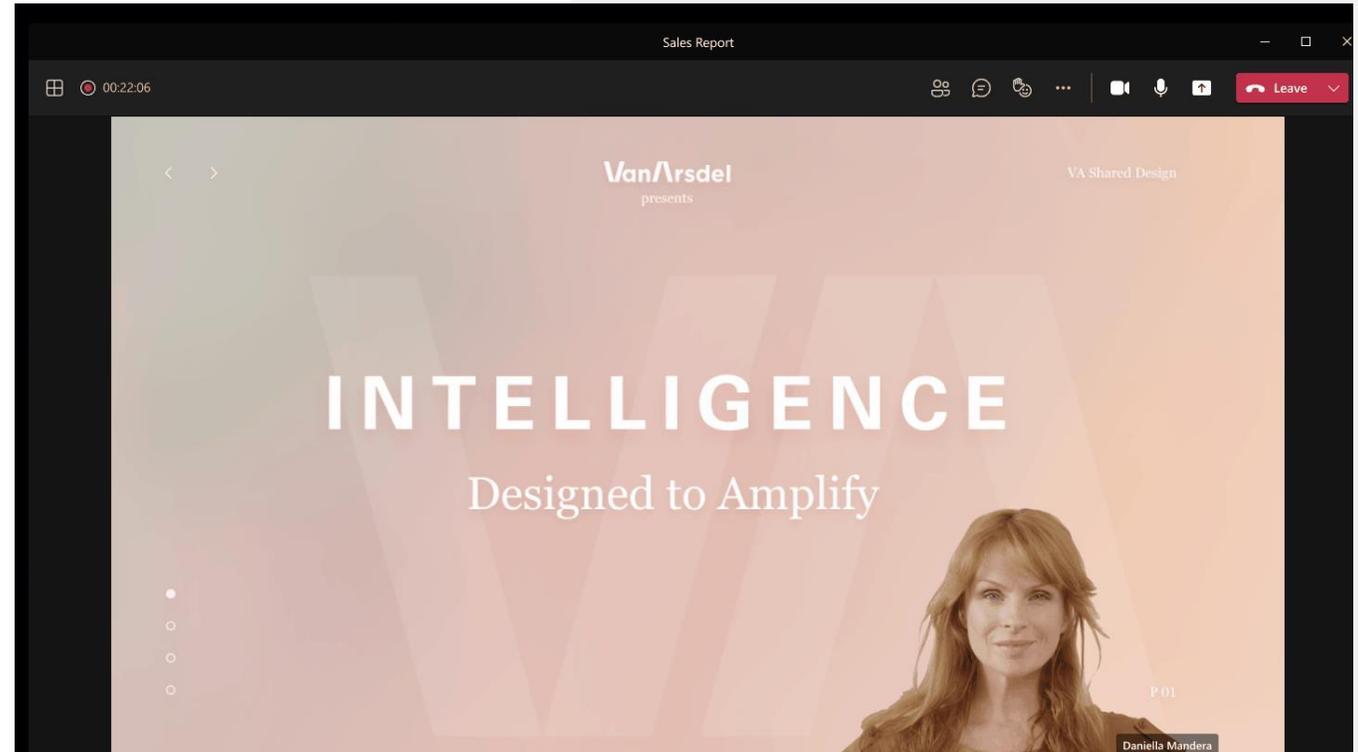

Optimize your meeting experience:

- Gallery at top
- Auto-adjusts

PRESENTER MODE

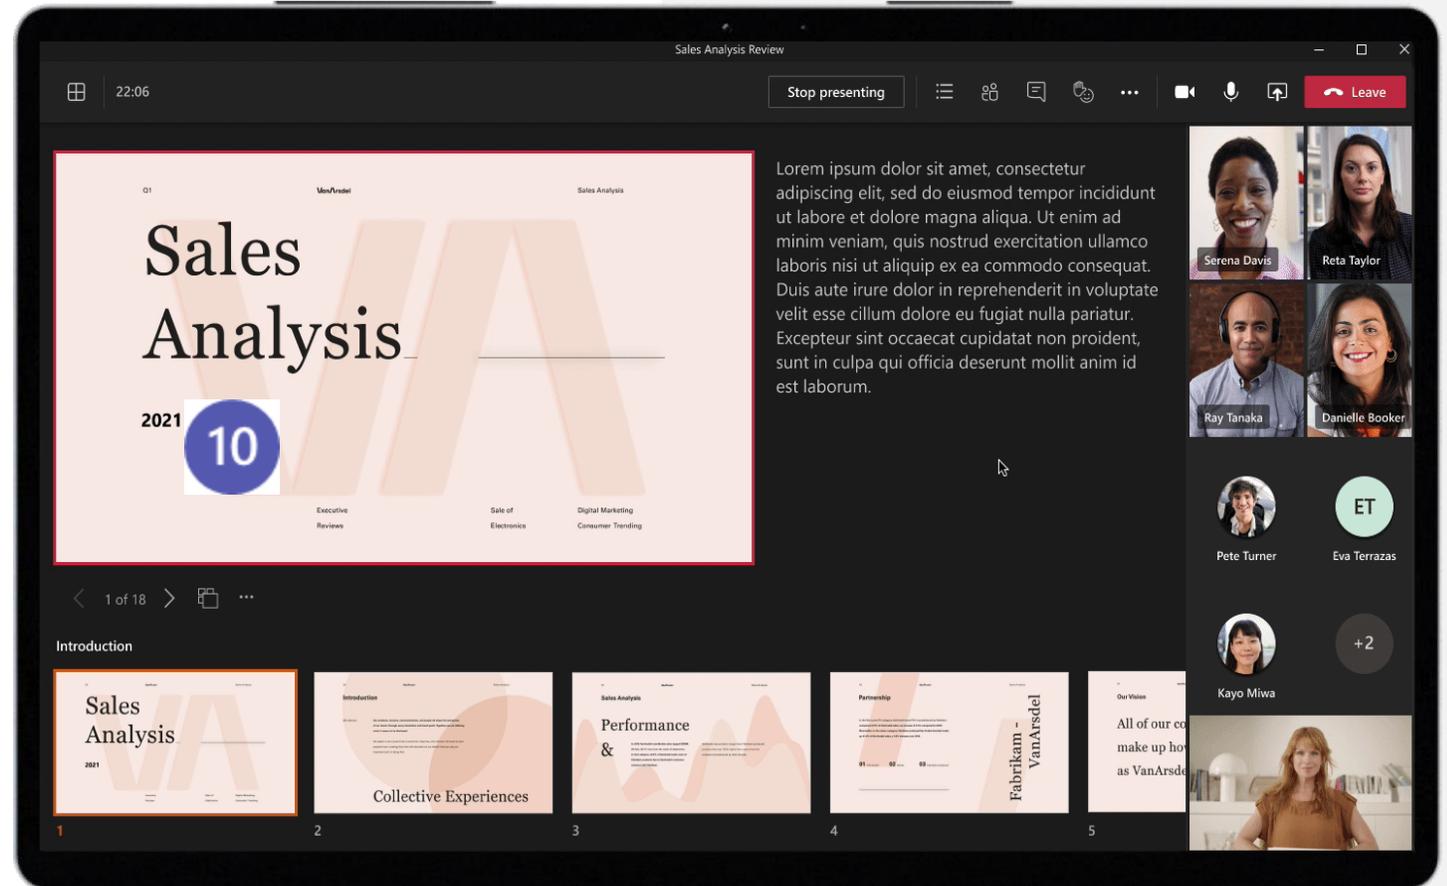

Presenter mode empowers you, as a presenter, to customize how your video feed and content appear to the audience. Over time, this capability will come to incorporate multiple views, including:

POWERPOINT LIVE IN TEAMS

Deliver engaging presentations:

- Notes, slides, meeting chat, and participants in a single view.
- Privately navigating the content at their own pace
- Accessible content with Screen reader

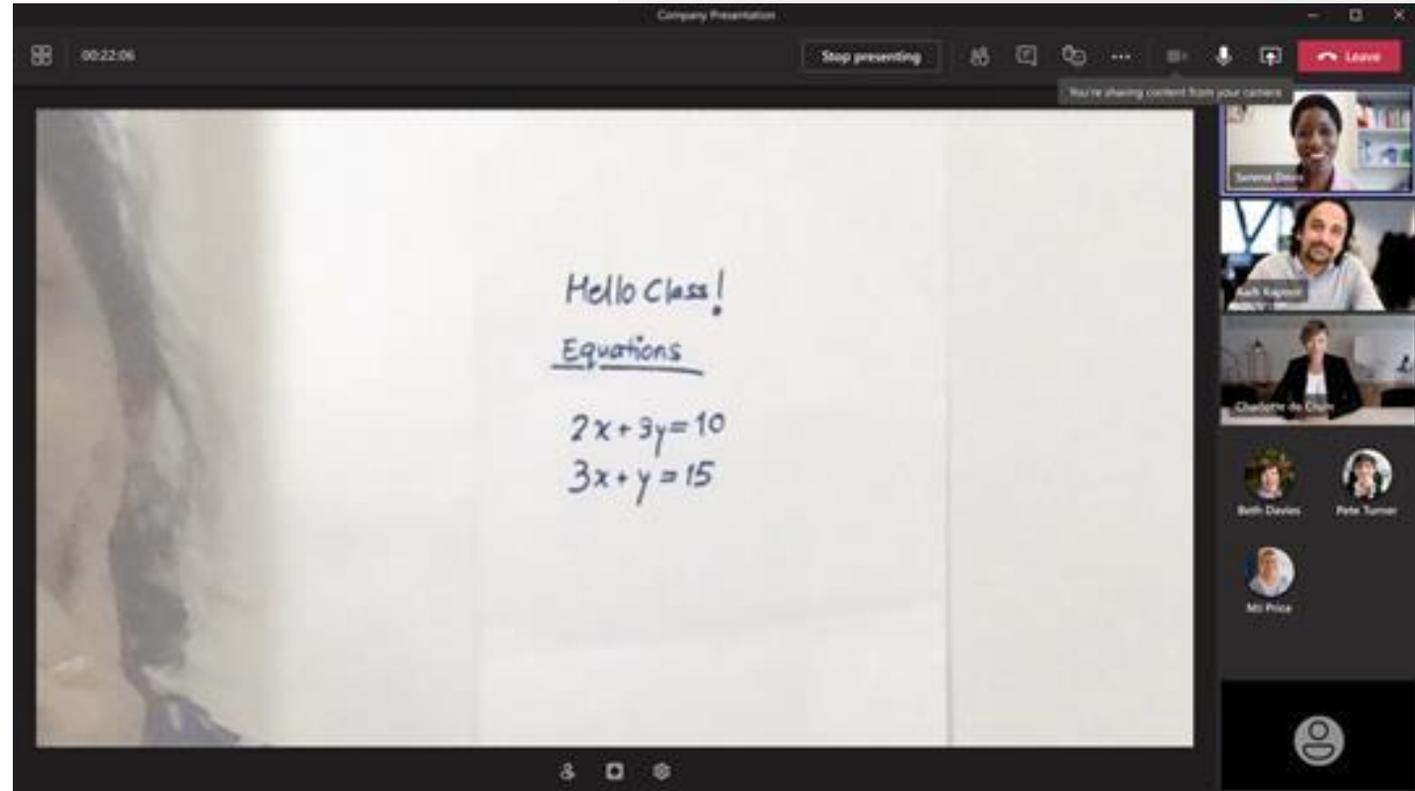

Intelligent capture (aka Content from Camera)

Sometimes it's easier to share, teach, or brainstorm by physically writing or drawing.

Now, using Content from Camera, educators and students will be able to share physical handwriting from a whiteboard or document using their desktop camera (or other connected PC cameras).

Students will be able to clearly see the whiteboard brainstorming in real time, even when their educator is standing in front of the whiteboard. (No other device needed!)

Prototype only.

ATTENDEE REPORTING

Learn who attended and how long they participated

The screenshot shows a Microsoft Teams meeting interface for 'Entrepreneurship in 2021'. The 'Attendance' tab is active, displaying a summary and a list of participants. The summary includes registration page views, registered attendees, and those who attended. It also shows the total event time and average attendance. The participants list includes names, status, duration, join time, and leave time.
